SKILLS

- **Programming Languages** : Java, Python, JavaScript, TypeScript, SQL, C, Rust
- **Frameworks & Technologies** : Spring Boot, Django, Node.js, JPA/Hibernate, REST API, Microservices
- **Databases** : PostgreSQL, MySQL
- **Cloud & DevOps** : AWS (EC2), Docker, GitHub Actions
- **Monitoring & Observability** : Prometheus, Grafana
- **Software Engineering** : OOP, Design Patterns, SOLID Principles, Unit Testing, Clean Code
- **Tools** : Git, GitHub, Maven, Gradle, Postman, Swagger/OpenAPI
- **Security** : Secure Coding Practices, OWASP Top 10, Basic Penetration Testing

EDUCATION

- Bachelor of Computer Science** August 2024 – August 2028
University of Indonesia, Depok
- Relevant Courses: Data Structures & Algorithms, Web Development, Advanced Programming, Database Systems, Operating Systems, Data Science & Machine Learning

PROJECTS

My Portfolio Website

- Personal Project*
- Built and deployed a responsive portfolio website using Next.js, TypeScript, and Tailwind CSS to showcase projects and technical skills.
 - Designed reusable components and optimized performance, maintainability, and user experience across devices.

JSON – Jastip Online Nasional Platform

- Academic Project*
- Developed wallet, payment, and transaction modules using Java Spring Boot and PostgreSQL following SOLID principles and design patterns.
 - Implemented Docker-based deployment, automated CI/CD pipelines with GitHub Actions, and deployed services on AWS EC2 with Prometheus and Grafana monitoring.

Organization Workflow Discord Bot

- Personal Project*
- Developed a Discord bot using Node.js and Discord.js to automate task coordination and status tracking within an organization.
 - Implemented event-driven workflows through reaction-based task assignment and progress monitoring, reducing manual coordination efforts.

EXPERIENCES & ACTIVITIES

- Teaching Assistant – Operating Systems** January 2026 – June 2026
Faculty of Computer Science — University of Indonesia, Depok
- Conducted tutorial sessions and assisted students with operating systems concepts.
 - Designed quizzes, graded assignments, and provided technical feedback.

- Head of Creative Events Department** February 2025 – January 2026
Keluarga Mahasiswa Buddhis Universitas Indonesia (KMBUI) — University of Indonesia, Depok
- Led department members in planning and executing organizational programs.
 - Established department structure, workflows, delegated responsibilities, and coordinated cross-functional teams.

- Head of Logistics & Security Division** May 2025 – November 2025
Sanghadana Kathina KMBUI 2025 — University of Indonesia, Depok
- Managed logistics planning and operational readiness for a major organizational event.
 - Developed a Discord bot to improve committee coordination and communication.

- AI & Computer Vision Hackathon Participant** March 2026 – May 2026
FIND IT! 2026 — University of Indonesia, Depok
- Developed a computer vision solution using YOLO for a real-world problem.
 - Prepared datasets and performed model fine-tuning and evaluation.
